N A P L E S

An informal style of dressing that is well in tune with modern times and rhythms. At the same time, a style which does not refrain from seeking beauty, revealing itself to the eyes and to the touch as precious and sophisticated. The beginning of this story is a 100% natural fabric, born from the encounter of three fibres capable of pleasing each movement: wool, silk, linen. On this textile landscape originating in nature, patterned surfaces and fancy designs are revealed: the result is a spontaneous, easy-to-wear, highly desirable look.
